● Carefully read the instructions for safe and correct use of the air conditioner.

● Carefully keep the instructions as it can be referred to at any time.

# CONTENTS

- Before first time use of the remote controller, install the batteries and ensure the "+"and "−" poles are correctly positioned.
- Ensure the remote controller is pointed to the signal receiving window and that there is no obstruction between them, the distance is 8m at the maximum.
- Do not let the remote controller drop or fling it at will. Do not let any liquid in the remote controller. Do not expose the remote controller directly to the sunlight or excessive heat.
- If the remote controller does not function normally, remove the batteries for 30 seconds before reinstall them. If that doesn't work, replace the batteries.
- When replacing the batteries, do not mix the new batteries with old ones or mix batteries of different types, which could cause failure of the remote controller.
- If the remote controller is not to be used for a long period of time, remove the batteries first, lest the leakage from them may damage the remote controller.
- Properly dispose the discarded batteries.

**Note:**
1. **This is an universal remote controller which provide all the function buttons. Please understand that some of the buttons may not function, depending on the specific air conditioner you have purchased.
